

March 27, 2024

RID 2618 - Wylie Creek Estates
Dale Olson
39 Wylie Creek Blvd
Bozeman, MT 59718

Morrison-Maierle has been retained by Gallatin County to prepare the RID maintenance assessments for 2024-2025 (FY25). We are compiling the necessary data on individual RIDs to compute your annual assessment, which will consider a long-term maintenance program.

We are in the process of calculating the assessments for your district. Each year we evaluate the assessments based on the cash on hand, upcoming scheduled improvements, and any additional repairs that may be revealed during the year. The largest portion of your assessment is “banked” to provide funding for an asphalt surface overlay or chip seal. Funds must be accrued every year to build up adequate cash to complete the scheduled maintenance.

A portion of your assessment could also be used to cover snow removal costs if your area is provided those services. The balance of the assessment goes toward vegetation control, patching, and other annual maintenance.

Future scheduled improvements include crack sealing in the summer of 2028 and an overlay in the summer of 2025.

Please feel free to call me at (406) 922-6824 or RID Program Coordinator Ashley Farley at (406) 922-6721 if you have any questions or comments regarding your roads or your annual assessments.

Sincerely,

James Nickelson, PE
Gallatin County RID Project Manager

We create solutions that build better communities.
